

# Bognor Regis Town Council RULES & GUIDANCE FOR SEAFRONT SHELTER POSTERS COMPETITION

## PHOTO SPECIFICATIONS

**Your photo's and artwork can be either portrait or landscape.**

Each photo should be a minimum file size of 8 -10 MP (Mega pixels) however 5 MP (Mega pixels) would be sufficient for posters that would have more than one image printed on it. Most DSLR cameras and mobile phones should take good quality images. If using your mobile phone, don't forget to make sure the lens is clean first.

**Please Note:** if your photo has people that can be recognised in the shot, then you **MUST** seek permission from them using a permissions form we can send you.

If you choose to create some artwork, then you can send in photos of these too using the same minimum file sizes for photos. Please make sure that the artwork is flat when taking a photo to avoid distortion of the image.
